

ENGINEERING + ENTREPRENEURSHIP.

Build advanced technology.
Solve real problems.
Create **real impact**.

COMPACT.
INTELLIGENT.
EFFECTIVE.

Low profile.
Lightweight.
Golf cart integrated.

AI-powered perception.
Autonomous operation.
Ethical deterrence.

Reliable protection.
Better experiences.
Sustainable solutions.

REAL-WORLD IMPACT

- ✓ Protect golfers
- ✓ Safeguard boats
- ✓ Inspect infrastructure
- ✓ Secure critical assets

SKILLS YOU WILL GAIN

AI & AUTONOMY

Computer vision, sensor fusion,
decision making

SOFTWARE & SYSTEMS

Embedded systems, robotics,
cloud, data

MECHANICAL & ELECTRICAL

Hardware design, controls,
power, integration

ENTREPRENEURSHIP

Customer discovery, business
models, go-to-market

LEADERSHIP & IMPACT

Teamwork, project delivery,
real-world impact

FROM IDEA
TO IMPACT

DISCOVER

Understand needs.
Define the problem.

DESIGN

Architect the system.
Model & simulate.

BUILD

Integrate hardware
and software.

TEST

Validate performance.
Iterate & improve.

DELIVER

Deploy the prototype.
Measure real impact.

THIS IS YOUR PROJECT.

Design. Build. Test. Deliver.
You'll create a **real prototype**.
Your ideas. Our resources. **Real impact**.

INNOVATE

Solve meaningful problems
with **cutting-edge AI**.

ENGINEER

Design and build a **working autonomous** drone system.

DELIVER

Test in real conditions.
Create **real-world value**.

SYSTEM DESIGN

- ✓ Autonomous Flight
- ✓ AI Perception
- ✓ Ethical Deterrence
- ✓ System Integration
- ✓ Field Testing

RESEARCH

Understand the problem.
Explore the possibilities.

DESIGN

Plan the system.
Model and simulate.

BUILD

Integrate hardware
and software.

TEST

Refine performance.
Validate in the field.

DELIVER

Present your prototype.
Make an impact.

YOUR SEMESTER. YOUR TEAM. YOUR OPPORTUNITY. **BUILD WHAT'S NEXT.**

One semester. Real challenges.
A prototype that can change the game.
The future starts with **you**.

COLLABORATE

Work with a team of passionate engineers.

INNOVATE

Apply cutting-edge AI, robotics, and embedded systems.

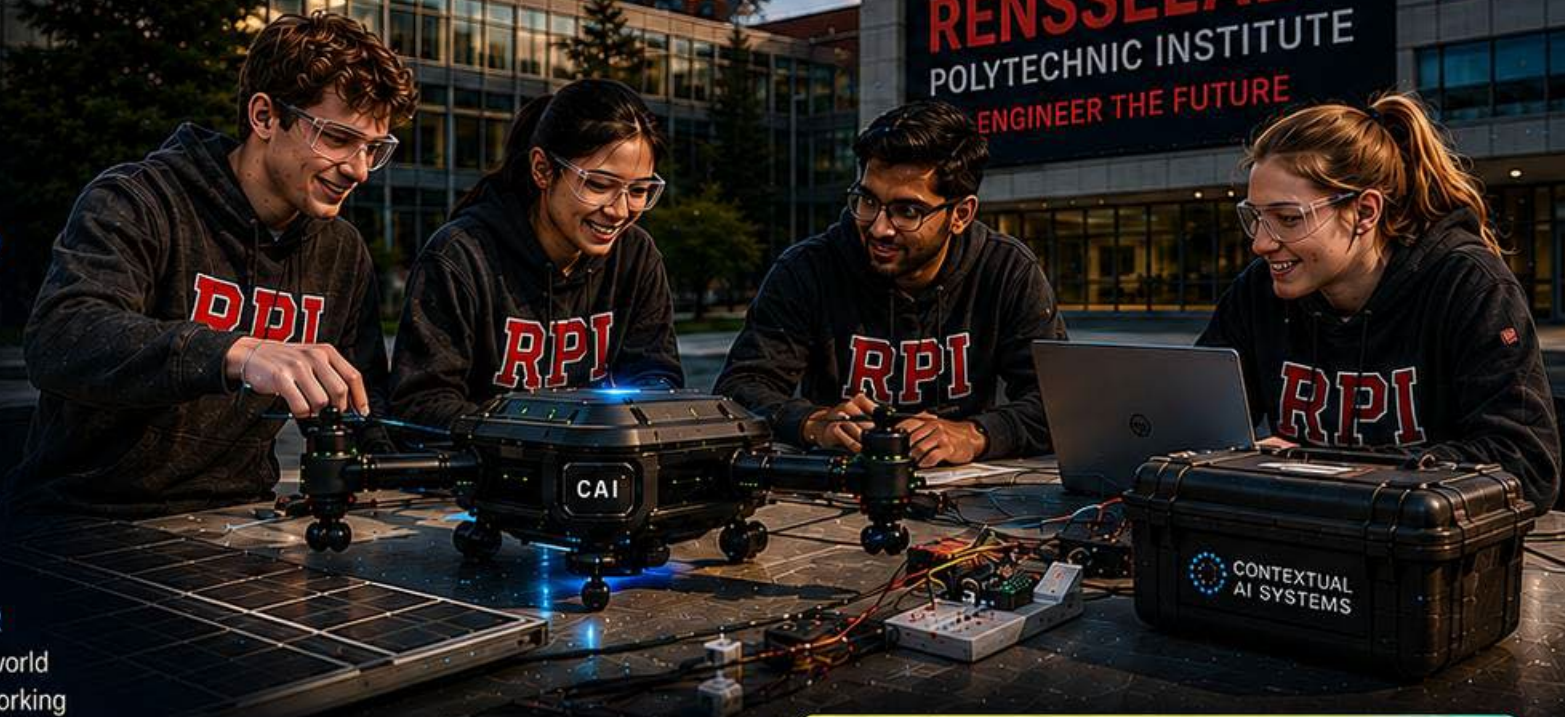

BUILD

Design, prototype, and iterate in a hands-on environment.

DELIVER

Create real-world value with a working prototype.

YOU WILL GAIN

- ✓ Practical engineering experience
- ✓ Leadership & teamwork
- ✓ Entrepreneurial mindset
- ✓ Portfolio-ready results

TOOLS & TECHNOLOGIES

PYTHON

AI/ML

ROS

CLOUD

EMBEDDED

REAL-WORLD IMPACT

PROTECT PEOPLE

PRESERVE WILDLIFE

SAFEGUARD INFRASTRUCTURE

BUILD A BETTER FUTURE

JOIN THE AUTONOMOUS
CONTEXTUAL-AI DRONE PLATFORM
INITIATIVE AT RPI.

INNOVATE. IMPACT. INSPIRE.

ENGINEERING + ENTREPRENEURSHIP BUILD THE FUTURE.

Design. Build. Test. Deliver.
A hands-on initiative. A real prototype.
A difference that **matters**.

INNOVATE

Solve real problems
with intelligent
autonomous systems.

ENGINEER

Design, build, and
integrate advanced
technologies.

ENTREPRENEUR

Create value.
Launch ideas.
Lead the future.

IMPACT

Protect. Improve.
Inspire.
Change the world.

CONTEXTUAL AI
Sees. Understands. Acts.

AUTONOMOUS PROTECTION
Safe. Ethical. Effective.

REAL-WORLD IMPACT
Today. Tomorrow. Everywhere.

**ENGINEERING +
ENTREPRENEURSHIP**
Build solutions.
Create value.

THIS COULD BE
YOUR PROJECT.

ONE SEMESTER.
REAL IMPACT.
LIMITLESS POSSIBILITIES.

LEARN MORE. GET INVOLVED.
MAKE IT HAPPEN.

THIS IS YOUR MOMENT. BUILD THE FUTURE.

ONE TEAM

Focused.
Collaborative.

ONE PROTOTYPE

Real. Functional.
Field-ready.

MANY IMPACTS

Protect. Monitor.
Improve.

A FUTURE

Powered by
your innovation.

Hands-On Engineering + Entrepreneurship at RPI
